

PROFILE:

JENS HALLSTRÖM

Innovative team player with solution orientation

As of yet, all my workplaces have included communication and marketing tasks and I thrive on combining my skills and experiences in different ways. Co-operation with other people is something I find very rewarding – giving and taking and thereby helping each other forward at work is deeply satisfying and what I find spurs development. I am a curious person and I find it important to be able to grow and develop, in the workplace as well as in my free time. My foremost strength is my commitment and my good humour, which often involves the group and raises the mood.

I AM:

CONSCIENTIOUS – I take great responsibility for my job assignments, no matter if I work on my own initiative or in a group environment. I am eager to do a good job and to be able to stand by my achievements.

SOCIAL – I am prone to establish good relations with clients as well as colleagues. I move in several social networks and can easily relate to the person in front of me.

CONSTRUCTIVE – With my broad experience, and knowledge, in conjunction with my creative mind, I quickly find effective solutions.

I am looking forward to meeting you.

Kind regards,

Jens Hallström
